\* Special categories of cited documents:

-T-

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

\*A\* document defining the general state of the art which is not considered to be of particular relevance

-X-

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step

\*E\* earlier application or patent published on or after the international filing date

-Y-

when the document is taken alone

\*L\* document which may throw doubt on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

-Z-

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

\*O\* document referring to an oral disclosure, use, exhibition or other means

-&amp;-

document member of the same patent family

\*P\* document published prior to the international filing date but later than the priority date claimed
